Reviews

A very wonderful pdf with lucid and perfect answers. Of course, it is play, nevertheless an amazing and interesting literature. You can expect to like just how the article writer compose this book.
(Gunner Haag)

REFLECTIVE PRACTICE IN PSYCHOTHERAPY AND COUNSELLING

[DOWNLOAD](#)

Open University Press. Paperback. Book Condition: new. BRAND NEW, Reflective Practice in Psychotherapy and Counselling, Rudi Dallos, Jacqui Stedmon, "This is a rigorously edited book that maintains consistency throughout, I found the concluding chapter 'reflections on reflections' particularly useful. This book captures what is current in reflective practice neatly charting its dissemination from education theory into the different therapy schools. Reflective practice is effectively illustrated within the different therapeutic schools. I will be recommending this book to other members of the multidisciplinary team where I work." BMA Medical Book Awards 2010 - Highly Commended in the Psychiatry Section Reflective Practice has become established as an essential feature of practice in psychotherapy and counselling in the UK, Europe, USA and some other parts of the world. However, the writing on reflective practice is arguably fragmented and scattered, and much of it is highly theoretical and abstract. This book draws together conceptual and ethical issues regarding reflective practice, including the meaning and development of the orientation. More importantly, it connects theory to day-to-day practice in psychotherapy and counselling, addressing issues such as: What does reflective practice look like, in practice? How do we develop the skills in carrying it out? What ways does it assist practice? The book offers an exploration of reflective practice within different models of psychotherapy and counselling: CBT, psycho-dynamic and narrative, systemic family therapy, narrative and community approaches. Throughout, it employs a range of illustrations from a variety of clinical contexts to illustrate reflective practice in action. These include work with; children and families, adult mental health, trauma and abuse, learning disability, youth offending and bereavement and loss. The mix of theoretical background along with practical examples and exercises will be key for students and practitioners in the fields of psychotherapy and counselling. The book will be a spur to readers to challenge dominant assumptions and modes...
