Skyhorse Publishing. Paperback. Book Condition: new. BRAND NEW, The Phantom Virus: Herobrine's Revenge : An Unofficial Minecraft's Adventure: Book One , Mark Cheverton, Herobrine is gone forever, but he's crafted one last evil game for Gameknight999 to play. Herobrine, the artificially intelligent virus, was deleted. The computer it resided in was completely destroyed. Without their leader, the few survivors of its evil army were cast away into the shadows. It looked as if there would finally be peace and happiness throughout the servers of Minecraft. But suddenly, and mysteriously, software began misbehaving. Sheep fell from the sky. Snowballs appeared out of nowhere. What seemed at first like harmless glitches quickly became dangerous. Wolves turned vicious without warning, gaping holes appeared in the ground, and crops began to die. Gameknight999, the User-that-is-not-a-user, returns to Minecraft at his friends' urgent request--just as a village is covered with lava and then drowned in water. Another village is completely destroyed. Then another. Examining the arrogant clues, Gameknight realizes that Herobrine, before he was deleted, programmed command blocks to inflict terrible death and destruction on all of Minecraft. Navigating through mind-numbing riddles and treacherous landscapes, Gameknight and his friends will race to find the command blocks and thwart the vile trap Herobrine has set for them all.
