THEOSOPHY AS AN EMPIRICAL SCIENCE

Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Those who are acquainted with Dr. Macintosh s Problem of Knowledge, will take up this book with large expectation and will not be disappointed. It is a book not for those who have no doubts, but rather for those who seek apart from tradition and dogma the confirmation of Christian belief. From the beginning the author aims to meet the attack of scientific doubt and to defeat it upon scientific grounds rather than by appeal to authority or dogma. Through the volume he holds to the scientific validity and reality of religious experience and hopes to discover therein all the facts needed for a tenable working theology. Just as William Newton Clarke brought an answer to the theological questionings of fifteen years ago the author will do an undoubted service to the present time. The direct resort to religious experience for the proofs of ordinary doctrine is made because the writer believes that Speculation can only elucidate what is involved in a hypothesis. It cannot, apart from any resort to experience provide verification. . . . And if theology is to become scientific it must be by becoming fundamentally empirical The foundations of the discussion are laid upon the answers to the following questions: (1). Is there religious perception, or something in the religious realm corresponding to perception, viz., cognition of the divine as revealed within the field of human experience? (2). Is it possible to formulate, on this basis of the data made available in religious experience, theological laws, or generalizations as to what the divine Being does on the fulfillment of certain discoverable conditions? (3). Can theological theory be constructed in a scientific manner upon the...
