With the help of this book, people can rectify the fear they face every time they find themselves up against a problem. They can create logical and creative solutions and glide through life s everyday problems, for the rest of their days. Problem Solving Strategies: Decision Making and Problem Solving demands to understand why people allow themselves to falter against their problems. When faced with a problem, different kinds of people do different kinds of things. For example: some hide. Some turn to the assistance of others, and some work through their problems creatively. How can you, the reader, learn to encapsulate all the elements of the perfect problem solver-with all of his logical, analytical, and CREATIVE pursuits-to create an essential solution to your problem? This book teaches the reader how to identify his problems. (Know that this is NOT as easy as it seems. Generally, the problem at hand is not the problem at the root.) It teaches the reader to utilize both the LEFT and the RIGHT brain, to create strategic life hacks, and to engage in SELF HYPNOSIS to effectively initiate creative solutions. Furthermore, this book walks the reader through step-by-step problem solving solutions to classic relationship-based problems. Don t Allow Yourself to Falter from Your Dreams. Work Through Your Problems. Today.
